Projects

1. E-Commerce Web Application (Full Stack)

Technologies : React.js, Django, REST API, MySQL

Built full-stack e-commerce site with React frontend & Django backend

Added product listing, search, cart, checkout & JWT authentication

Designed MySQL schema for users, products, orders & categories

Implemented REST APIs for seamless frontend-backend communication

2. Student Management System (Web-Based)

Technologies : Django, MySQL

Developed web app to manage student records, attendance & grades

Added role-based auth for admin, teachers & students with login

Built CRUD features for profiles, courses & marks entry

Optimized database queries for fast data access & reports

3. Personal Portfolio Website

Technologies : HTML, CSS, Javascript, React.js

Created responsive portfolio site using React.js components

Added project showcase, skills section & contact form

Implemented reusable UI elements & mobile-friendly design
